

Certificate of attendance

We hereby attest that

Lorenzo Colturato

was selected and participated as Solver in the **2022 edition** of the **Proto Challenge** organised by Fondazione Hub Innovazione Trentino, held from **9 March 2022** to **18 May 2022**.

Specifically, the student worked with other solvers for 11 weeks, and an estimated amount of 75 hours, to address one industrial challenge using methodologies and techniques for analysis, topology and thermal optimization supporting the prototyping of industrial products and components with additive manufacturing technologies.

The organiser of the Proto Challenge,
